

REGULAR MEETING OF THE UTILITIES COMMISSION September 12, 2023, 3:30 P.M. Elk River City Hall Uppertown Conference Room

AGENDA

1.0 GOVERNANCE

- 1.1 Call Meeting to Order
- 1.2 Pledge of Allegiance
- 1.3 Consider the Agenda
- 1.4 Resolution Recognizing 2023 Public Power Week
- 1.5 Resolution Recognizing 2023 Customer Service Week
- 2.0 CONSENT (Routine items. No discussion. Approved by one motion.)
- 2.1 Check Register August 2023
- 2.2 Regular Meeting Minutes August 8, 2023
- **3.0 OPEN FORUM** (Non-agenda items for discussion. No action. Presenters must adhere to a time limit of 3 minutes.)
- 4.0 POLICY & COMPLIANCE (Policy review, policy development, and compliance monitoring.)
- 4.1 Commission Policy Review G.2a Commission-City Council Relationship and Roles
- 5.0 BUSINESS ACTION (Current business action requests and performance monitoring reports.)
- 5.1 Financial Report July 2023
- 5.2 2024 Annual Business Plan: Capital Projects & Equipment Purchases, and 20-Year Capital Projections
- 6.0 BUSINESS DISCUSSION (Future business planning, general updates, and informational reports.)
- 6.1 Staff Updates
- 6.2 City Council Updates
- 6.3 Minnesota Municipal Utilities Association Summer Conference Discussion
- 6.4 Future Planning (Announce the next regular meeting, special meeting, or planned quorum.)
 - a. Regular Commission Meeting October 10, 2023
 - b. 2023 Governance Agenda
- 6.5 Other Business (Items added during agenda approval.)

7.0 ADJOURN REGULAR MEETING

UTILITIES COMMISSION MEETING

TO:	FROM:				
ERMU Commission	Chris Sumstad – Electric Superintendent				
MEETING DATE:	AGENDA ITEM NUMBER:				
September 12, 2023	1.4				
SUBJECT:					
2023 Public Power Week					
ACTION REQUESTED:					
Adopt Resolution 23-7 Reco	gnizing Public Power Week, October 1-7, 2023				

DISCUSSION:

Elk River Municipal Utilities, now in their 78th year operating as a municipally owned public power utility, will be celebrating Public Power Week 2023.

This national event is sponsored in conjunction with the American Public Power Association. There are approximately 2,000 community-owned electric utilities that collectively provide electricity on a not-for-profit basis to 49 million Americans. They are operated by local governments as a public service with the mission of providing electricity in a reliable manner, at a reasonable cost, and with proper protection of the environment. Public power companies exist to serve our fellow citizens, friends, and neighbors. Elk River Municipal Utilities' loyalty is to our customers and our community, not stockholders. We are proud to be a public power utility and to help make our community a great place to live and work. Every year we recognize Public Power Week as a reminder of the responsibility we have to our consumer-owners.

ATTACHMENTS:

Resolution No. 23-7 - Recognizing 2023 Public Power Week

RESOLUTION No. 23-7

BOARD OF COMMISSIONERS ELK RIVER MUNICIPAL UTILITIES

A RESOLUTION OF BOARD OF COMMISSIONERS OF ELK RIVER MUNICIPAL UTILITIES RECOGNIZING PUBLIC POWER WEEK, OCTOBER 1-7, 2023

WHEREAS, we, the citizens of Elk River, place high value on local control over community services and therefore have chosen to operate a community-owned, locally controlled, not-for-profit electric utility and, as consumers and owners of our electric utility, have a direct say in utility operations and policies; and

WHEREAS, ERMU provides our homes, businesses, farms, social service, and local government agencies with safe, reliable, efficient, and cost-effective electricity employing sound business practices designed to ensure the best possible service at not-for-profit rates; and

WHEREAS, ERMU is a valuable community asset that contributes substantially to the well-being of local citizens through energy efficiency, customer service, environmental protection, economic development, and safety awareness;

NOW, THEREFORE BE IT RESOLVED that ERMU will continue to work to bring lower-cost, safe, reliable electricity (and water services) to community homes and businesses just as it has since the utility was created; and

BE IT FURTHER RESOLVED that the week of October 1-7 be designated Public Power Week in order to honor ERMU for its contributions to the community and to make its consumer-owners, policy makers, and employees more aware of its contributions to their well-being; and

BE IT FURTHER RESOLVED that our community joins hands with more than 2,000 other public power systems in the United States in this celebration of PUBLIC POWER.

This Resolution Passed and Adopted this 12th day of September, 2023.

John J. Dietz, Chair	
Mark Hanson, General Manager	

UTILITIES COMMISSION MEETING

TO:	FROM:				
ERMU Commission	Sara Youngs – Administrations Director				
MEETING DATE:	AGENDA ITEM NUMBER:				
September 12, 2023	1.5				
SUBJECT:					
2023 Customer Service Week					
ACTION REQUESTED:					
Adopt Resolution 23-8 Re	cognizing Customer Service Week, October 2-6, 2023				

BACKGROUND:

In 1992 the U.S. Congress, by Senate joint resolution, designated the first week of October as National Customer Service Week and requested the President issue a proclamation in support. On October 8, 1992, President George Bush issued Proclamation 6485 recognizing the first week of October as National Customer Service Week.

In President Bush's proclamation he notes, "...businesses will do a better job of providing high quality goods and services by listening to its employees and by empowering them with opportunities to make a difference. Customer service professionals work in the front lines where a firm meets its customers; where supply meets demand. With responsive policies and procedures and with simple courtesy, customer service professionals can go a long way toward ensuring customer satisfaction..."

DISCUSSION:

Elk River Municipal Utilities' (ERMU) mission statement promises: "To provide our customers with safe, reliable, cost effective and quality long term electric and water utility service. To communicate and educate our customers in the use of utility services, programs, policies, and future plans. These products and services will be provided in an environmentally and financially responsible manner." To be successful in our mission, it is essential that ERMU provide excellent customer service while providing safe, reliable, and cost-effective utility services.

Here at ERMU, we recognize our employees that provide excellent customer service and ask the Commission to support these employees, and our organization, by adopting this resolution recognizing Customer Service Week.

ATTACHMENTS:

Resolution No. 23-8 - Recognizing 2023 Customer Service Week

RESOLUTION No. 23-8

BOARD OF COMMISSIONERS ELK RIVER MUNICIPAL UTILITIES

A RESOLUTION OF BOARD OF COMMISSIONERS OF ELK RIVER MUNICIPAL UTILITIES RECOGNIZING CUSTOMER SERVICE WEEK, OCTOBER 2-6, 2023

WHEREAS, Elk River Municipal Utilities (ERMU) provides electric and water utility services within the City of Elk River, the City of Otsego, the City of Dayton, and Big Lake Township; and

WHEREAS, the ERMU mission statement specifies: "To provide our customers with safe, reliable, cost effective and quality long term electric and water utility service. To communicate and educate our customers in the use of utility services, programs, policies, and future plans. These products and services will be provided in an environmentally and financially responsible manner"; and

WHEREAS, providing excellent customer service is an essential component of successfully operating in accordance with the ERMU mission statement and an expectation of our customers; and

NOW, THEREFORE, BE IT RESOLVED that ERMU will continue to work to bring lowercost, safe, reliable electricity and water services to community homes and businesses just as it has since the utility was created; and

BE IT FURTHER RESOLVED that ERMU will encourage their employees to take initiative and continue to provide new and more efficient ways of providing excellent customer service; and

BE IT FURTHER RESOLVED that the week of October 2-6 be designated Customer Service Week in order to honor ERMU and its staff for the continued commitment to providing excellent customer service.

This Resolution Passed and Adopted this 12th day of September, 2023.

John J. Dietz, Chair

ELK RIVER MUNICIPAL UTILITIES REGULAR MEETING OF THE UTILITIES COMMISSION HELD AT THE UPPERTOWN CONFERENCE ROOM

August 8, 2023

Members Present: Chair John Dietz, Vice Chair Mary Stewart, Commissioners Paul Bell, Matt

Westgaard, and Nick Zerwas

ERMU Staff Present: Mark Hanson, General Manager

Tony Mauren, Governance & Communications Manager

Tom Geiser, Operations Director

Mike Tietz, Technical Services Superintendent

Chris Kerzman, Engineering Manager

Jenny Foss, Communications & Administrative Coordinator Kathy Greenberg, Accounts Payable/Payroll Specialist

Matt Schwartz, Lead Lineworker

Others Present: Jared Shepherd, Attorney

1.0 GOVERNANCE

1.1 Call Meeting to Order

The regular meeting of the Utilities Commission was called to order at 3:30 p.m. by Chair Dietz.

1.2 Pledge of Allegiance

The Pledge of Allegiance was recited.

1.3 Consider the Agenda

There were no additions or corrections to the agenda.

Moved by Commissioner Zerwas and seconded by Commissioner Bell to approve the August 8, 2023, agenda. Motion carried 5-0.

1.4 Recognition of Employee Longevity – Kathy Greenberg, 8 years; Matt Schwartz, 12 years

Mr. Hanson presented Ms. Greenberg, who is part of the three-member financial team making sure invoices and employees are paid on time. Mr. Hanson went on to share that Ms. Greenberg does a fabulous job and that ERMU is lucky to have her.

Chair Dietz presented Ms. Greenberg with the according 8-year longevity payment. There was a round of applause.

Mr. Geiser presented Mr. Schwartz, commending him for his 12 years of service. Mr. Geiser explained that Mr. Schwartz began his employment as a first year apprentice, followed by subsequent roles as a journey lineworker and now senior lead lineworker. Mr. Geiser thanked Mr. Schwartz for all he's done and will do with ERMU.

Chair Dietz presented Mr. Schwartz with the according 12-year longevity payment. There was a round of applause.

2.0 CONSENT AGENDA (Approved By One Motion)

Moved by Commissioner Westgaard and seconded by Commissioner Bell to approve the Consent Agenda as follows:

- 2.1 Check Register July 2023
- 2.2 Regular Meeting Minutes July 11, 2023
- 2.3 2023 Second Quarter Utilities Performance Metrics Score Card Statistics

Motion carried 5-0.

3.0 OPEN FORUM

No one appeared for open forum.

4.0 POLICY & COMPLIANCE

4.1 Commission Policy Review – G.2 – Commission Purpose

Mr. Mauren presented his memo and the policy, which establishes the Commission's purpose, for review.

The Commission had no comments or edits to the policy.

4.2 **Electronic Signature Policy**

Mr. Mauren presented his memo which explains the need for a new commission policy establishing the use acceptability of electronic signatures on formal operations documents and agreements.

Mr. Mauren provided background that the current process requiring applicants to print and sign the agreement was initially put in place to aid in identity verification but since that time technology advancements have allowed for secure electronic submission. He added that feedback from customers has been that ERMU's current process is uncommon and inconvenient.

Mr. Mauren went on to explain that the State of Minnesota encourages electronic signatures as a cost-effective and efficient method of operation.

Mr. Mauren explained that with the policy's approval he would work with IT staff to implement electronically signable service agreement forms on the website.

Chair Dietz asked if this policy would apply to all documents that customers come in contact with.

Mr. Mauren explained that while service agreements are the most common application it would apply to other documents as laid out in the policy.

Mr. Hanson clarified that while the policy applies to more than service agreements, they would be the first to have electronic signature function built into them and that other documents may carry the feature in the future.

Moved by Commissioner Stewart and seconded by Commissioner Westgaard to approve ERMU Commission Policy G.2i Electronic Signatures. Motion carried 5-0.

5.0 BUSINESS ACTION

5.1 Financial Report – June 2023

Mr. Hanson presented the June 2023 financial report in the absence of the finance manager. He explained that while electric sales are down 3% from prior year, the electric budget is ahead of prior YTD and budget YTD with the removal of a \$500,000 power cost adjustment offset.

Commissioner Westgaard clarified that while sales and revenue are down performance is favorable. Mr. Hanson confirmed this.

Mr. Hanson went on to explain that the water department budget shows sales increasing but being behind prior YTD because of water access charges from large construction projects in 2022.

Chair Dietz inquired as to why the financials show a nearly 10% increase for electric sales in Elk River.

Mr. Hanson stated he will work with the finance manager when she returns to find the answer.

With the warm and dry weather, there was discussion about electric and water sales for the month of July.

Chair Dietz asked if the customer service staff is receiving complaints from customers about high bills.

Mr. Hanson shared that he had not heard of any but added that most customers have not received billing for their July usage.

Moved by Commissioner Westgaard and seconded by Commissioner Bell to receive the June 2023 Financial Report. Motion carried 5-0.

5.2 **2023 Second Quarter Delinquent Items**

Mr. Hanson presented the second quarter delinquent items for 2023, providing background and description on the four collections methods.

Mr. Hanson noted that the large write off amount in the second quarter was due in part to two commercial accounts, which made up over half the total, reaching the six-year limit for collections established by the State.

There was discussion about the six-year statute of limitation for collection efforts.

Chair Dietz asked if one of the residential items listed at \$1,600 was for one month of usage.

Mr. Hanson clarified that it was not for a single month. There was discussion.

Moved by Commissioner Zerwas and seconded by Commissioner Stewart to approve the 2023 second quarter delinquent items submitted. Motion carried 5-0.

5.3 2024 Annual Business Plan: Travel & Training Budget; Dues & Subscriptions - Fees Budget

Mr. Hanson presented the Travel & Training and Dues & Subscription - Fees portion of the Annual Business Plan for commission review in August in preparation for approval of the complete plan in December.

He noted there is a 5% increase in the travel & training budget stemming from conversation at the previous month's meeting about increased conference participation opportunities for commissioners as well as the addition of the Xylem Reach Conference to prepare staff for the implementation of Advanced Metering Infrastructure (AMI).

Mr. Hanson explained that the dues & subscription budget shows a 10% decrease from the prior year because in 2022 the Commission was planning to bond for AMI equipment and installation, but since that time has decided to utilize reserve funds from water department which will be repaid. Mr. Hanson explained that if you remove bonding from the calculation, the 2024 budget has a 4% increase, due mostly to IT maintenance for AMI.

Chair Dietz had questions about the addition of new conferences to the travel & training budget.

Mr. Hanson explained that legal staff and the governance & communications manager would be attending the American Public Power Association's Legal & Regulatory Conference in October for the first time on ERMU's behalf and that he would attend the following year.

Commissioner Stewart noted that there is no dollar amount listed for the Legal & Regulatory Conference in the 2023 budget.

Mr. Hanson explained that staff is still expecting discussions with ERMU's power provider about the possibility that they will fund those conferences.

Commissioner Stewart noted that there was a comment on the budget that stated Midwest Municipal Transmission Group no longer bills its members for dues.

Mr. Hanson confirmed that the organization is still in operation but no longer charges dues to members.

Commissioner Zerwas restated his comments from the previous commission meeting about the value in expanding opportunities for commissioners to attend conferences.

5.4 Field Services Facility Open House Update

Ms. Foss presented her memo on the field services building open house, occurring on Thursday, August 24.

She added that notices for the event would be sent out to nearby properties, that there has been significant improvements to landscaping with the recent laying of sod, and that commissioners should wear the yellow shirts they have been provided to help guest identify them as event facilitators.

There was discussion about the irrigation system and punch list progress with the construction manager.

Chair Dietz had a question regarding the parking logistics for the event.

Ms. Foss explained that office staff would be carpooling to the building while field staff would be using the church parking lot across the street for their personal vehicles. Staff added that in addition to the north parking lot, spaces would be created on black top in the southern portion of the site.

There was discussion about the food that would be available to guests.

6.0 BUSINESS DISCUSSION

6.1 **Staff Updates**

Mr. Hanson informed the Commission that the contractor doing the street rehabilitation in the School View neighborhood identified 15 residential curb stop valves with issues that may prevent them from functioning properly. Mr. Hanson explained that those residences have been notified of the issue and received a recommendation from ERMU to work with the contractor to resolve the issue, as the customer owns that portion of the system.

Mr. Tietz informed the Commission that Locator Devin Ruprecht gave notice of resignation on July 27 and his last day with ERMU was to be August 11. Mr. Tietz added that staff will be advertising the opening through August 15 and looked to begin interviewing as soon as possible.

Mr. Shepherd shared his appreciation for the Commission allowing him to attend American Public Power Association's Legal & Regulatory Conference in October.

6.2 <u>City Council Update</u>

Commissioner Westgaard provided an update from the City Council on topics including conditional use permits, approval for a new housing development on Lake Orono, snow removal policy, and Night to Unite.

6.3 **Future Planning**

Chair Dietz announced the following:

- a. Regular Commission Meeting September 12, 2023
- b. Quorum MMUA Summer Conference August 21-23, 2023
- c. Quorum ERMU Field Services Facility Open House August 24, 2023
- d. 2023 Governance Agenda

6.5 **Other Business**

Chair Dietz asked when the brackets to display the no overnight parking signs would be added to the downtown streetlights.

Mr. Geiser responded that ERMU would be attaching the brackets when they arrive but there have been delays on delivery.

Commissioner Westgaard shared that council members had heard concerns from residents between 193rd and 197th Avenues that they may be required to connect to

Elk River Municipal Utilities Commission Meeting Minutes August 8, 2023 ERMU's water system. Mr. Westgaard clarified that connection would be initiated by a developer.

In response to an email sent to the Commission regarding preparations for the Employee Appreciation Lunch that takes staff food allergies into consideration, Commissioner Westgaard asked for discussion on how the Commission would like to proceed. There was discussion.

Chair Dietz requested that Mr. Mauren find quotes from caterers who could provide options that meet the food allergies needs.

7.0 ADJOURN REGULAR MEETING

Moved by Commissioner Bell and seconded by Commissioner Zerwas to adjourn the regular meeting of the Elk River Municipal Utilities Commission at 4:14 p.m. Motion carried 5-0.

Minutes prepared by Lony Mauren.	
John J. Dietz, ERMU Commission Chair	

UTILITIES COMMISSION MEETING

TO:	FROM:			
ERMU Commission	Tony Mauren – Governance & Communications Manager			
MEETING DATE:	AGENDA ITEM NUMBER:			
September 12, 2023	4.1			
SUBJECT:				
Policy Review – G.2a – Commission-City Council Relationship and Roles				
ACTION REQUESTED:				
Review the policy and provide any feedback.				

BACKGROUND/DISCUSSION:

This month commissioners are reviewing policy G.2a – Commission-City Council Relationship and Roles to make comments, ask questions, or recommend updates.

Although governed autonomously by the Commission, ERMU is within the City of Elk River's governing authority. This policy describes the Commission's relationship to City Council and the way the Commission aims to interact with Council. It establishes the processes by which the Commission evaluates performance, supports economic development efforts, schedules joint meetings, assists in commissioner appointments, and reviews its payments in lieu of taxes and other donations to the City.

ATTACHMENTS:

ERMU Policy – G.2a – Commission-City Council Relationship and Roles

COMMISSION POLICY

Section:	Category:
Governance	Governance Policies
Policy Reference:	Policy Title:
G.2a	Commission – City Council Relationship and Roles

PURPOSE:

With this policy, the Commission describes its role in relation to the Elk River City Council and the way in which it desires to interact with the City Council.

POLICY:

The Commission and the City Council share the responsibility for ensuring effective governance of ERMU for the benefit of the City, its citizens, and ERMU's utility customers. The Commission desires to maintain a working relationship with the City Council that will enable both bodies to coordinate and carry out their separate responsibilities so that ERMU is governed with excellence.

Although governed autonomously by the Commission, ERMU is part of the City of Elk River's City government. This creates opportunities for bringing greater value to the stakeholders of both the City and ERMU through a hybrid of municipal utilities and city governance. It is the intent of the Commission to align its governance structures and processes with the city in ways that will realize opportunities for greater value.

Consistent with the preceding, the Commission will:

- 1. Routinely monitor, evaluate, and strive to improve its performance, keeping the City Council informed in a thorough and timely manner about the effectiveness of the Commission's governance with respect to the following:
 - a. Compliance with legal and fiduciary responsibilities;
 - b. Compliance with Commission-established Governance policies that are periodically reviewed and updated, and that set expectations for ERMU's strategic and business results, governance, and management.

- 2. Support ERMU's active participation in the City's Economic Development Authority (EDA), representing the interests of ERMU's stakeholders and working to develop common goals for economic development.
- 3. Provide an opportunity for the City Council to meet jointly with the Commission at least once every three (3) years. The meeting will be held following completion of the annual independent financial audit. The focus of this joint meeting will be a report by the Commission to the Council of ERMU's financial and operating results for the preceding fiscal year, along with an opportunity for the Council to provide input to the Commission on matters related to planning and budgeting for the next fiscal year. The Commission may request or recommend additional joint meetings for other specific purposes.
- 4. Develop, update as necessary, and provide to the Mayor and City Council documentation that is intended to ensure the appointment of qualified and committed ERMU Commissioners. Such documentation will include relevant knowledge and experience, core competencies, and character traits that are consistent with the Commission's requirements and commitments to effective governance. The Commission's expectation is that the City Council will use this information to appoint persons who are appropriately qualified and well-informed about the expectations for service as a Commissioner.
- 5. At least annually at the time of budgeting for the next fiscal year, consider ERMU's financial condition with respect to voluntary payments in lieu of taxes (PILOT) and other donations of services from the ERMU utility enterprises to the City that are likely to have material financial consequences for both entities. The Commission will inform the City Council promptly of any material changes in the PILOT and other donations. Further, the Commission will use a process for determining PILOT and other financial donations to the City that is transparent, consistent with state and national benchmarking comparisons, forecasted and budgeted, and with a mutually understood methodology. In approving or allowing other donations such as labor, street lighting, and water for fire suppression, the Commission will subscribe to the philosophy that it is providing value to the community and not just shifting costs from one entity to the other.

POLICY HISTORY:

Adopted May 9, 2017

UTILITIES COMMISSION MEETING

TO:	FROM:			
ERMU Commission	Melissa Karpinski – Finance Manager			
MEETING DATE:	AGENDA ITEM NUMBER:			
September 12, 2023	5.1			
SUBJECT:				
Financial Report – July 2023				
ACTION REQUESTED:				
Receive the July 2023 Financial Report				

DISCUSSION:

Please note that these are the preliminary unaudited financial statements.

Electric

July year to date (YTD) electric kWh sales are down 2% from the prior year. For further breakdown:

- Residential usage is up 1%
- Small Commercial usage is up 7%
- Large Commercial usage is down 5%

For July 2023, the Electric Department overall is ahead of prior YTD and favorable to budget YTD. Additional variance analysis can be found on the Summary Electric Statement of Revenues, Expenses and Changes in Net Position attachment.

Water

July YTD gallons of water sold are up 29% from the prior year. For further breakdown:

- Residential use is up 29%
- Commercial use is up 29%

For July 2023, the Water Department overall is behind prior YTD but favorable to budget YTD. Additional variance analysis can be found on the Summary Water Statement of Revenues, Expenses and Changes in Net Position attachment.

Item Variance of +/- \$25,000 and +/- 15%

Net Income Profit(Loss)

- (1) PYTD variance is mainly due to increased usage (4%) and PCA revenue in 2023.
- (2) PYTD variance is due to accrual of PCA revenue in 2022 (See Rate Increase on Detailed Statement).
- (3) Budget variance is due to conservative budgeted amount. PYTD variance is due to the change in Fair Market Value of Investments.

56,082

- (4) PYTD variance is due to not charging customer penalties in January 2022.
- (5) PYTD variance is due to the LFG Project coming to an end in 2022.
- (6) YTD Budget and PYTD variance is due to less than average connection fees in 2023.
- (7) YTD Budget variance is mainly due to a conservative budgeted amount for contribution from customers.
- (8) PYTD variance is mainly due to increased labor for snow removal, additional supplies and increased electric and natural gas expense for new field services building in 2023.

(29,247)

- (9) PYTD variance is due to the LFG Project coming to an end in 2022.
- (10) YTD Budget variance is due to an even budget spread for misc distribution expense. PYTD variance is mainly due to increased labor (inventory, tool repair, maintenance of rubber goods, electrical apparatus maintenance/repair, and grounds testing/maintenance) expense in 2023.

(403,102)

- (11) YTD Budget variance is mainly due to increased interest rate on deposits and timing issue of budgeted amount for loss on disposition of property.
- (12) PYTD variance is mainly due to increased credit card fees/charges and bad debt expense due to 6 year statute of limitation.
- (13) YTD Budget variance is mainly due to less rebate dollars spent than budgeted.
- (14) PYTD variance due to Furniture & Things energy audit expense of \$29K.

Item Variance of +/- \$15,000 and +/- 15%

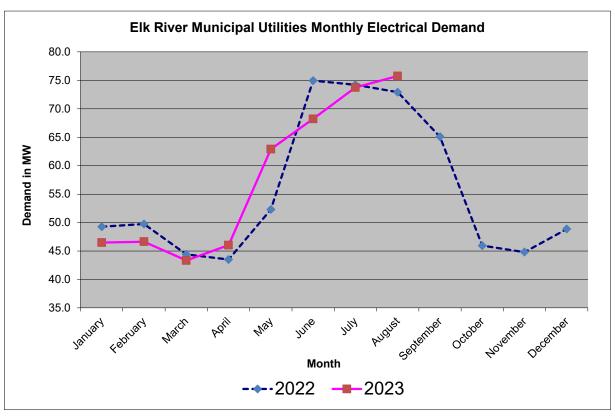

⁽¹⁾ YTD Budget variance is due to usage being higher than budgeted and PYTD variance is due to rate increase and higher usage in 2023.

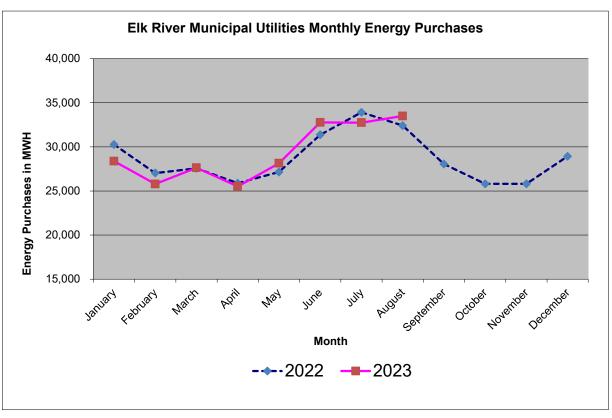

⁽²⁾ PYTD variance is due to the change in Fair Market Value of Investments.

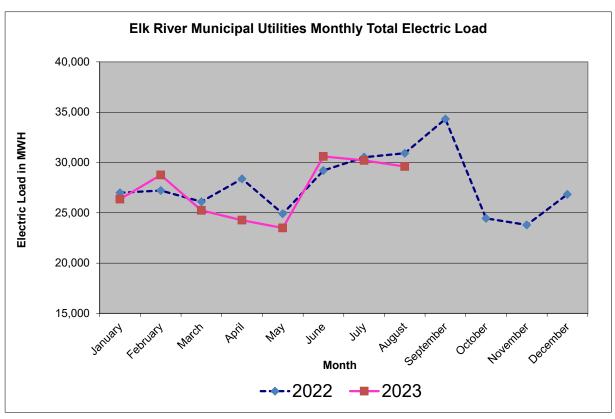

⁽³⁾ YTD Budget variance is due to less than average connection fees. PYTD variance is due to more Connection Fees in 2022.

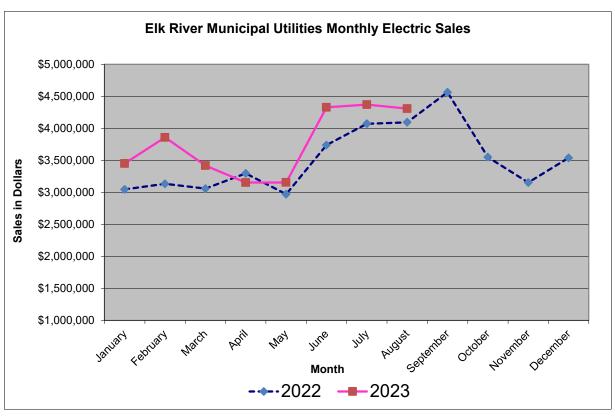

⁽⁴⁾ PYTD variance is due to Water Tower lease revenue being recognized annually in 2023 vs monthly in 2022 (GASB 87).

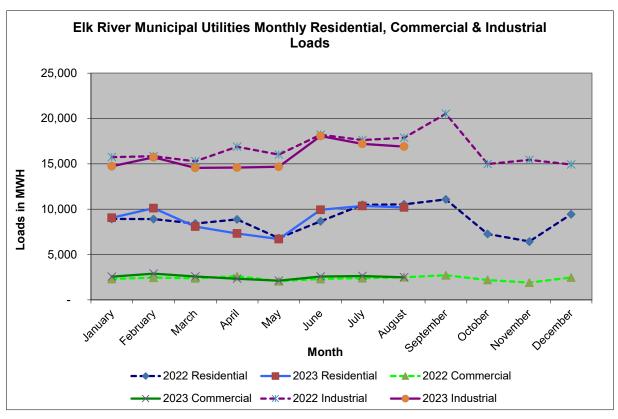

⁽⁵⁾ PYTD variance is due to a 2023 water main repair and additional Cty Rd 13 expenses which are partially offset by less water meter change outs in 2023.

TO:	FROM:
ERMU Commission	Melissa Karpinski – Finance Manager
MEETING DATE:	AGENDA ITEM NUMBER:
September 12, 2023	5.2
SUBJECT:	
2024 Annual Business Plan: C	apital Projects and Equipment Purchases and Capital 20-Year
Projections	
ACTION REQUESTED:	
No action is required.	

DISCUSSION:

In preparation for budget submittal in November, staff continues to work through the 2024 budget process. The first draft of the capital budget portion of the 2024 budget has been completed for commission review. The capital budget may change as the complete 2024 budget is assembled, when more information on project timing is available, when the rates change, and once cash flow becomes more definite. Included are the timeline projections for 20 years. Non-capital noteworthy items (expenses) are shown separately from the capital budgets at the bottom. The Conservation Improvement Plan (CIP) budget is not included this month and will be presented during the October commission meeting.

The following information is included for your review of the capital budgets:

- 1. Electric Department 2024 Capital Budget Includes large non-recurring capital construction projects, recurring capital construction projects and asset preservation, and capital equipment purchases. Notable items for 2024 include Advanced Metering Infrastructure (AMI) which is a multi-year project estimated to be completed in 2025, electric service territory acquisition loss of revenue payments, data center feeder and additional/unidentified feeders, Dayton rebuild (multi-year project estimated to be completed in 2028, and partially funded through the Infrastructure Investment and Jobs Act grant), Highway 169 Redefine project (multi-year project wrapping up in 2024), replacing digger truck #9, and replacing pickup truck #13.
- 2. Electric Department Capital 20-Year Projections Highlights anticipated large non-recurring capital construction projects, recurring capital construction projects, and asset preservation projects through 2044.
- 3. Water Department 2024 Capital Budget Includes large non-recurring capital construction projects, recurring capital construction projects and asset preservation, and capital equipment purchases. Notable items for 2024 include AMI (multi-year project estimated to be completed in 2025) and replacement of existing water main at Upland Avenue and Meadowvale Road.

- 4. Water Department Capital 20-Year Projections Highlights anticipated large non-recurring capital construction projects, recurring capital construction projects, and asset preservation projects through 2044.
- 5. Technical Services and Administrative Capital Budgets Includes capital projects and capital equipment purchases. Notable items for 2024 include a fiber loop (shared project with ERMU, the City, and ISD 728) and several fiber extensions (from Highway 169 to North substation, Johnson Tower, and Auburn Tower).
- 6. Administration and Technical Services Departments Capital 20-Year Projections Highlights anticipated large non-recurring capital construction projects, recurring capital construction projects, and asset preservation projects through 2044.

The utilities utilize a vehicle replacement evaluation system implemented with the City. Additional information on vehicle evaluations is available upon request.

FINANCIAL IMPACT:

The 2024 Electric Department Capital Budget has increased compared to the prior year. The main driver of the increase is the implementation of AMI and construction of additional feeders. As in years past, we will use reserves to pay for the territory expansion costs (approximately \$950,000 for 2024). We will also plan on using reserves to pay for some feeder work and the County Road 12 interconnection agreement with Connexus. We also plan to do an inter-fund loan from the water department to fund the electric portion of the AMI project. Lastly, the Dayton rebuild project is expected to be partially (50%) funded by Infrastructure Investment and Jobs Act grant money.

The 2024 Water Department Capital Budget is comparable to the prior year. We plan on using reserves to pay for AMI and the water main construction.

In 2022, both the Electric Department and Water Department started a multi-year project implementing AMI. \$4,500,000 has been planned for 2024 between the two departments.

The Administration and Technical Services Departments Capital Budgets are comparable to the prior year. These projects get allocated to the Electric and Water Departments and are shown as separate lines on their capital budget.

ATTACHMENTS:

- 2024 Electric Department Capital Budget
- 2024 Electric Department Capital 20-Year Projections
- 2024 Water Department Capital Budget
- 2024 Water Department Capital 20-Year Projections

- The Wage & Benefits Committee held their open meeting on August 18. Staff representatives presented four requests for consideration related to pay, on-call response, and time off. The committee will meet again September 12. Their plan is to present the committee's recommendation at the October commission meeting.
- Greg Ridderbusch, Connexus Energy's CEO since 2015, has submitted his retirement notice to the board. Connexus has retained a search firm to assist with selecting Greg's successor, with a targeted transition of early 2024. Additional information can be found here:
 Connexus Energy CEO Succession – Connexus Energy.
- Commissioner Stewart and I attended the August 2023 Minnesota Municipal Power Agency (MMPA) Board of Directors meeting. The public summary of the meeting is below:
 - The Board of Directors of MMPA met on August 29, 2023, at Chaska City Hall in Chaska, Minnesota and via videoconference.
 - o The Board reviewed the Agency's financial and operating performance for July 2023.
 - Customer penetration for the residential Clean Energy Choice program increased to 4.9%. There was an increase of 49 customers participating in the residential Clean Energy Choice program from June to July.
 - The Board discussed the current business environment.
 - The Board discussed the status of renewable projects the Agency is pursuing.
- In response to my query, MMPA Vice President David Niles offered the following publicly releasable bullets regarding their renewable natural gas project in Elk River:
 - The Minnesota Municipal Power Agency is developing a Renewable Natural Gas (RNG) project at the Elk River Landfill in Elk River, Minnesota. The project would take gas

- produced by decomposition of materials in the landfill and convert it to pipeline-quality natural gas.
- MMPA has requested to interconnect with the Northern Natural Gas (NNG) pipeline near the project site. Thus far, NNG has not offered an interconnection agreement to MMPA. As a result, MMPA filed a complaint with the Federal Energy Regulatory Commission (FERC).
- The timing and outcome of the FERC complaint process is uncertain. We do, however, expect resolution of this issue in 2024.

- Office walk-in traffic for August consisted of 155 customers, averaging 37 customers per week over the 4-week period.
- ERMU disconnections for the month of August
 - Cycle 2 14 disconnections
 - Cycle 3 12 disconnections and 1 red tag
 - Cycle 4 5 disconnections
 - Cycle 1 17 disconnections
 - Cycle 2 13 disconnections
- Currently there are 3 active residential solar photovoltaic projects planned or under construction in the ERMU service territory.
- Staff has been working with STAR Energy Services on creating and revising ERMU's Distributed Energy Resources as part of the set-up process to use their Nova Power Portal.
- During the month of September 2023, HydroCorp will be mailing final notices to residents who
 have not scheduled their free backflow prevention test. Residents have until the end of
 September to avoid potential disconnection of water service or fine.
- The administrations director has gathered and sent contact information to Q Market Research for the next round of the customer satisfaction survey. They estimate we will receive the report by late October.
- In the last 30 days the level two chargers located downtown and in the parking lot in front of ERMU had a combined 45 sessions, providing customers with 655 kWh of green energy.
- The first cycle of assessment letters will be mailed the week of September 15. Subsequent cycle
 letters will be mailed in the following weeks with a deadline of the beginning of November. Our
 credits and collections specialist puts a lot of time into researching property owners to ensure
 adequate notice is given.
- The administrations director and the billing specialist (along with others within the organization) will be traveling to the National Information Solutions Cooperative's Member Information Conference in Denver, CO the week of September 17.

- We received our 2023-2024 workers' compensation coverage renewal quote. Our experience modification factor came in at .70, which is comparable to last year at .69. Estimated premiums will be \$67,593, which is 12% higher than last year. Rates on average will increase 3% for renewals in 2023. Other factors that affect premiums are changes in expenditures, payrolls, and other exposure measures.
- Staff continues compiling 2023 budget information.
- I will be attending National Information Solutions Cooperatives's Member Information Conference, September 17-20 in Denver, CO. I am looking forward to attending the many classes being offered on Business Intelligence & Reporting (Mosaic).

DISCUSSION:

- In September, residential electric customers will receive the attached Wi-Fi Thermostat Rebate flyer, while all customers will receive information about the Cold Weather Rule.
- In addition to highlighting the bill inserts, social media posts this month feature a variety of topics including multiple reminders for the open house, details on ERMU's EV event, a commission meeting notice, as well as the Labor Day closure and garbage delay.
- Communications and Administration departments are shifting into promotion/preparations for our annual event, EV-ER: Electric Vehicles in Elk River, being held on <u>September 28 at the Elk River Farmers Market</u>.
- The final campaign for our 2023 Conservation Improvement Program communications
 plan goes into effect on September 1 and lasts the month. There will be a billboard,
 newspaper ads, social media posts, a bill insert, a bill message, and an alert bar sharing
 information about the Wi-Fi Thermostat Rebate program. An example of the billboard
 going on northbound Highway 169 before Main Street is below.

WIFI THERMOSTAT REBATES

A WiFi thermostat offers temperature control, in-depth reporting, alerts, and energy savings all at the touch of a button. If that weren't reason enough to upgrade, ERMU is offering residential electric customers a \$40 rebate toward the purchase of your WiFi thermostat.

Customers applying for a rebate should complete the application on the opposite side. Rebates will be given in the form of a credit on your utility bill. Be sure to research which thermostat will be compatible with your heating and cooling system. Customers are eligible for two rebates per service address. Please complete one application for each thermostat

BEFORE YOU BUY

- · Research which WiFi thermostat will be compatible with your existing heating and cooling system.
- If you are unsure about properly installing your WiFi thermostat, contact an HVAC contractor.
- WiFi thermostats can only control one system at a time. If you have multiple zones or systems, you will need to purchase multiple thermostats.
- · Access to a strong wireless internet signal is required to operate the thermostat.

APPLICATION INFORMATION

- This rebate is for the purchase of a WiFi compatible thermostat. If the thermostat does not have WiFi capability, it does not qualify for this rebate.
- · Applicant must be an ERMU residential electric customer to qualify for this rebate.
- · Customer is eligible to receive two rebates per service address. Complete one application for each thermostat.
- Customer must submit a copy of the receipt that provides the unit's model number.
- · Rebates will be given in the form of a credit on the utility bill.
- Submit the completed rebate application and a copy of the receipt to ERMU by mail or email at customerservice@ermumn.com.

COLD WEATHER RULE UPDATES

THE MINNESOTA COLD WEATHER RULE (CWR) WAS RECENTLY EXPANDED AND WILL NOW BE IN EFFECT FROM OCTOBER 1ST - APRIL 30TH. THE CWR STATES THAT DURING THAT TIME A UTILITY MAY NOT DISCONNECT SERVICE AND MUST RECONNECT THE UTILITY SERVICE OF A RESIDENTIAL CUSTOMER IF THE DISCONNECTION AFFECTS THE PRIMARY HEAT SOURCE FOR THE RESIDENTIAL UNIT AND ALL OF THE FOLLOWING CONDITIONS ARE MET:

- The household income of the customer is at or below 50 percent of the state median household income.* (See back for details).
 - A customer enters into and makes timely payments under a mutually agreed upon payment agreement that considers the financial resources of the household.** [See back for details]

SOME CUSTOMERS MAY BE ELIGIBLE FOR FINANCIAL AID WITH ENERGY ASSISTANCE.
TO FIND OUT IF YOU QUALIFY. SEE THE BACK FOR AGENCIES IN YOUR COUNTY.

NOTICE: Customers applying for the Cold Weather Rule must complete the Inability to Pay form available at www.ERMUMN.com.

If you wish to have a third party notified of potential disconnection, please contact our office $\frac{1}{2}$ $\frac{1}{2}$ rovide that information.

RIGHTS AND RESPONSIBILITIES

*The utility may verify income on forms it provides or obtain verification of income from the local energy assistance provider. A customer is deemed to meet the income requirements of this clause if the customer receives any form of public assistance, including energy assistance that uses an income eligibility at or below 50 percent of the state median household income.

** Payments must be made according to the arrangement. If the arrangement cannot be met, please contact ERMU's office to discuss a different arrangement. If you do not meet these responsibilities, utility service may be disconnected. If you wish to dispute the disconnection, you have a right to contact our office and appeal. All appeals will be handled locally.

- Staff has been attending meetings with Sherburne County to plan for the County Road
 44 project.
- Working through a lot of commercial services at this time.
- Staff is working through maps for the new GIS mapping system that we plan to move forward with in the future.
- Working on 2024 Budgets.
- ERMU provided mutual aid to Mora Public Utilities, August 11-12, after high winds came through and took down most of their overhead lines in town.
- August 24 was the open house for the new ERMU Field Services Building. Things went very well. Thank you to all staff that made it happen.
- We received our last pickup truck for 2023. The three trucks that are getting replaced will be going to Hiller Auction in Zimmerman. We are still waiting for our new bucket truck from Altec.
- ERMU, Howard Industries, and Irby Utilities have reached an agreement that ERMU will receive money back for the four fuse pads that we still have issues with. The remaining eight we have in service at this time will have a warranty period attached to them.
- We had a primary bushing snap off a transformer that we installed for Plant & Things. We are waiting for Howard to deliver a new transformer to switch it out.
- Attended two Wage & Benefits Committee meetings this past month.

- Installed 15 new residential services, which involves the connection of a secondary line once the customer requests service.
- Crews continue to work on the underground primary replacement along Pascal Street south of County Road 32 in Elk River.
- Crews are working on both overhead and underground infrastructure along County Road 44 from Highway 10 to County Road 1. We are installing new and moving existing lines in preparations for the rebuild starting in 2024.
- Crews installed the three phase service for the 53 unit apartment building at Twin Lakes Road and 175th Avenue NW.
- Michels Corporation installed the joint trench utilities in Miske Meadows 8th and Villas at Fillmore developments. Our crews are working on terminating the wire in the Villas and will start Miske soon.
- Crews installed primary wire and two three phase transformers to serve the new Plants & Things retail and warehouse buildings.
- Crews installed electric infrastructure at both the Youth Athletic Complex fields and Woodland Trails Regional Park to serve new maintenance buildings being constructed at each location.
- Installed a transformer to serve a new billboard on Highway 10 east of Jarvis Street in Elk River.
- I attended the Minnesota Municipal Utilities Association Summer Conference held in Duluth on August 21-23.
- Congratulations to Alex Bernier on receiving his Journey Lineworker certificate on September 2.

TO:	FROM:
ERMU Commission	Mike Tietz –Technical Services Superintendent
MEETING DATE:	AGENDA ITEM NUMBER:
September 12, 2023	6.1g
SUBJECT:	
Staff Update	
ACTION REQUESTED:

- In August, the locators processed 575 locate tickets. These consisted of 464 normal tickets, 2 emergency tickets, 63 updated tickets, 21 cancellations, 18 meets, 1 non-excavation, 5 boundary surveys, and 1 correction. This resulted in a 3.5% decrease in tickets from the previous month and is a 4.2% decrease from the prior August.
- Electrical technicians completed 257 service order tasks, updated the power bill, addressed customer meter issues and any off-peak concerns.
- Electrical Technician Jeff Murray and I attended the Upper Midwest Metering Association Summer Conference in Duluth, August 16-18. There were several good roundtable discussions covering topics such as Advanced Metering Infrastructure (AMI) and Distributed Energy Resources. Also, Great River Energy representatives gave a presentation about bridging the gap between metering and data analytics which will be very useful with data that we will be receiving from our future AMI meters.
- On August 31, staff ran generators #1, #2 & #3 without incident. Engine #4 is still waiting on plugs that have been on backorder for some time now which are needed to repair the aftercooler tubes.
- Staff recently completed a couple of projects at the Waco substation. They installed an electronic dehydrator on the load tap changer of the #1 transformer which removes moisture from the oil. Staff also assisted Minnesota Municipal Power Agency's technician with replacement of their substation meter that had lost communications.
- Five candidates were interviewed for the recently vacated locator position. After careful
 consideration, I am pleased to announce that on August 29 our newest locator Russ
 Metzer began working with ERMU. Please join me in welcoming Russ to the ERMU
 family.
- The replacement for pickup #32 arrived after being on order with Ford for over a year. The second Ford that was ordered at the same time still had not been scheduled for production, so I cancelled the order and purchased a pickup from a Chevrolet dealership. This truck is to replace pickup #2 and was placed in service on August 16.

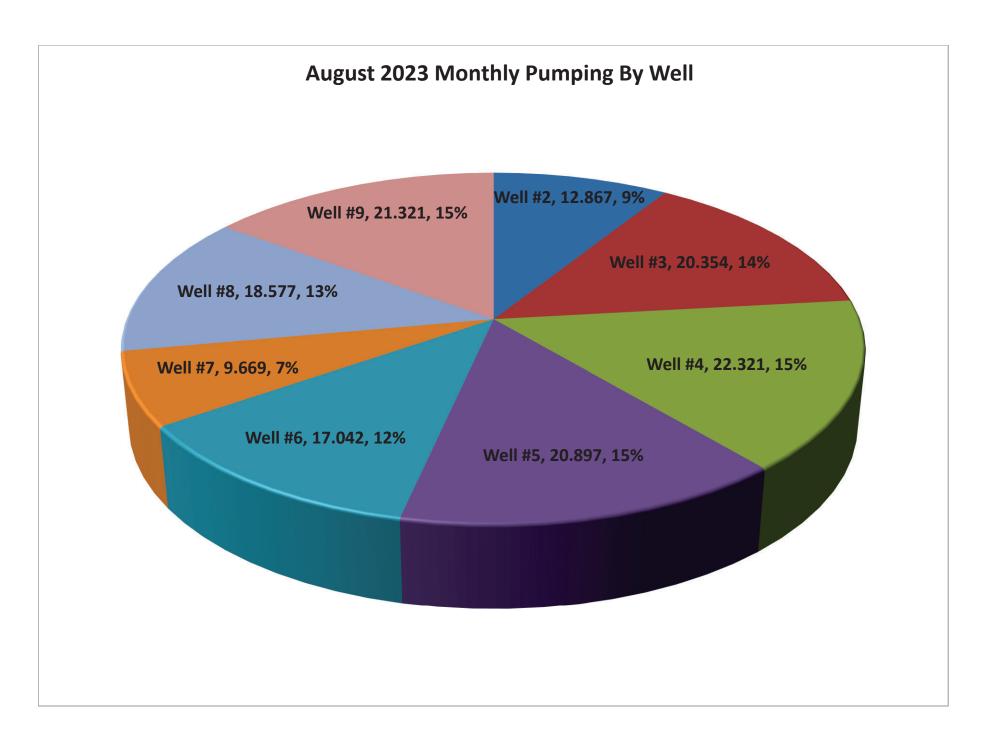

TO:	FROM:
ERMU Commission	Dave Ninow – Water Superintendent
MEETING DATE:	AGENDA ITEM NUMBER:
September 12, 2023	6.1h
SUBJECT:	
Staff Update	
ACTION REQUESTED:	
None	

- Delivered five new water meters, sealed the meter, installed an encoder receiver transmitter, and took curb stop ties.
- Completed 15 BACTI/Total Chlorine Residual Samples
 - All confirmed negative for Coliform Bacteria.
 - Bacteriological/Disinfectant Residual Monthly Report submitted to the Minnesota Department of Health (MDH).
- Completed 23 routine fluoride samples
 - All samples met MDH standards.
 - Submitted MDH Fluoride Report
- Completed two total trihalomethanes and haloacetic acids samples for the MDH.
- On August 20 well #7 pump motor stopped running and triggered a motor failure alarm.
 Megger testing has confirmed that the motor has a short and will need to be pulled and
 repaired. This repair was unexpected and not included in the 2023 budget but needs to
 be done to ensure we have enough functioning wells to meet water system capacity
 needs.
- MnDOT's contactor has extended the casing pipe for the water main crossing Highway 169 south of 193rd Avenue to match the width of the new road.
- Progress continues with the School View neighborhood water main replacement. All the
 water main pipes in phase one of the project have been replaced, passed testing, and
 are in service. Water services to houses have been reconnected and temporary water
 services are being disconnected. Four property owners in this phase of the project have
 elected to have the contractor replace their curb stop valve and service pipe from the
 curb box to the new water main and to have the cost assessed.
- After further investigation, the final report from our annual leak detection survey confirmed 12 leaks out of the 25 suspected leaks in the distribution system. Eight of the leaks are from fire hydrants, four are from water service lines. The water operators have fixed most of the leaking fire hydrants and we are working with the owners of the leaking water services to get them repaired.

- The Water Department has taken delivery of a new Chevrolet 2500 pickup truck. This
 will be an added truck to the fleet so that there is a truck available for plowing well and
 water tower driveways in the winter and to free up an older truck for a seasonal
 employee to use in the summer.
- The lowest quote received for the installation of a tank mixer and to perform maintenance work needed at Freeport Street Water Tower came in at \$97,620, exceeding the \$90,000 budget. This is due to material & labor cost increases and added scope of work. Our consulting engineer has confirmed that the prices are not unusual and recommends awarding the project to the contractor that provided the lowest quote. The consultant's recommendation letter is attached. Water in the tower has been drained and the contractor has started work on the tower, which should be completed in about three weeks.
- The water operators have been locating and exercising water main valves, performing fire hydrant repairs, and doing preventative maintenance.

- August 2023 Pumping by Well
- SEH Recommendation Letter Freeport Water Tower Maintenance

August 15, 2023

RE: Elk River Municipal Utilities
Water Storage Tank Maintenance –
Freeport 1.0 MG Hydropillar
SEH No. ELKMU 171929

Dave Ninow, Water Superintendent Elk River Municipal Utilities 13069 Orono Pkwy NW Elk River, MN

At 1:00 p.m., Friday, August 4, 2023, three bids were received for the above-referenced project. The base bids ranged from a high of \$158,450.00 to a low of \$97,620.00. The low bid received was submitted by Elevation Coatings of St. Cloud, MN in the amount of \$97,620.00.

Contractor	Base Bid
Elevation Coatings	\$97,620.00
Slack Painting	\$124,500.00
Classic Protective	\$158,450.00

This contractor has worked in Elk River on projects of various sizes. SEH engineers can conclude that Elevation Coatings has the experience and ability to complete a project of this size.

Accordingly, we recommend the project be awarded to Elevation Coatings in the reasonable amount of \$97,620.00.

Sincerely,

Brad Sipe

NACE CIP 3 #67044

Protective Coatings Manager/Project Manager

- We have been working with City IT staff on the RFP for expansion of the fiber loop to the northeast area of Elk River, and the project has been posted with a bid opening date of September 25. This is planned to be a joint project between City of Elk River, ISD 728, and ERMU.
- We have been coordinating with City IT staff on upgrades to the cameras and card readers at city hall that affect our staff. Both projects have gone very smoothly and are complete.
- DGR Engineering continues to work with WEG to finalize the required bonds for the
 Otsego substation transformer that was awarded in July. We have been advised this
 timeline is longer than past projects, but growing lead times are becoming typical. We
 are expecting delivery in spring of 2026, and hopeful to see review drawings this year.
- We have reviewed final punch list/warranty tracking items with RJM for the field services building and have been advised that they are targeting completion of a majority of items by the end of September. We expect that issues related to concrete and steel contractors may take additional time to resolve.
