

Connect to Comfort

A WiFi thermostat offers temperature control, in-depth reporting, alerts, and energy savings all at the touch of a button. If that weren't reason enough to upgrade, ERMU is offering residential electric customers a \$40 rebate toward the purchase of your WiFi thermostat.

Customers applying for a rebate should complete the application on the opposite side. Rebates will be given in the form of a credit on your utility bill. Be sure to research which thermostat will be compatible with your heating and cooling system. Customers are eligible for two rebates per service address. Please complete one application for each thermostat

BENEFITS OF A WIFI THERMOSTAT

CUSTOMER INFORMATION

Name _____ Account # _____
Address _____
City _____ State _____ Zip _____
Phone _____ Email _____

EQUIPMENT INFORMATION

Brand/Manufacturer _____ Model # _____
Primary Source of Heat ☐ Gas ☐ Electric ☐ Other _____ Installation Date _____
Central Air Conditioning ☐ Yes ☐ No

I certify that my thermostat has been installed at the address listed above, and that this address represents a valid utility account.

Signature _____ Date _____

BEFORE YOU BUY

- Research which WiFi thermostat will be compatible with your existing heating and cooling system.
- If you are unsure about properly installing your WiFi thermostat, contact an HVAC contractor.
- WiFi thermostats can only control one system at a time. If you have multiple zones or systems, you will need to purchase multiple thermostats.
- Access to a strong wireless internet signal is required to operate the thermostat.

APPLICATION INFORMATION

- This rebate is for the purchase of a WiFi compatible thermostat. If the thermostat does not have WiFi capability, it does not qualify for this rebate.
- Applicant must be an ERMU residential electric customer to qualify for this rebate.
- Customer is eligible to receive two rebates per service address. Complete one application for each thermostat.
- Customer must submit a copy of the receipt that provides the unit's model number.
- Rebates will be given in the form of a credit on the utility bill.
- Submit the completed rebate application and a copy of the receipt to ERMU by mail or email at customerservice@ermumn.com.
